

KEY CLUCKS

CFO NEWS CFO NEWS CFO NEWS CFO NEWS CFO NEWS CFO NEWS

OCTOBER 1981

By Jim, W9TO, CFO #1

SUPERCHICKEN FLIES AGAIN! Hello out there, CFO members. We send you some news, some information about Dayton '82, whole-some gossip, and like that.

GREETINGS TO THE CFO FROM EVERYWHERE From the National Weather Bureau--Best wishes for your success from another non-prophet organization. From the FOC--You chaps must operate more seriously. Press the key firmly. Chin up. You'll forge ahead, eh? From Wayne Green--Charley Whiskey is deplorable. My yogurt is flown in at great expense from Lhasa. From the NYPD--Break-in is a felony. From the ARRL--You call that a certificate? From the FCC--We are lawyers and we do not communicate with the outside world. Accept our greetings on enclosed Form 599P21DB bearing 3272 "x" signatures. And from Rodney Dangerfield--You don't get no respect from me.

THE BADGE OF HONOR If you do not have the super CFO call-letter-name badge you are almost naked at a club meeting, a hamfest or anything, and people will stare at you and ask strange questions. Send \$4.00, your call, your QSO name, and your mail address to W7EG, Mr. George Collier, 1816 Third ave. S., Anoka, Minn. 55303.

CFO TO MEET AT DAYTON CFO operators and next of kin will get together again at Dayton on Friday, Saturday and Sunday, the last week-end in April '82. Many will stay at the Imperial House North, and gather there Saturday night for the big QSO party and dinner. Steve, K4CJX, who did a spectacular job last year, is making inquiries and handling advance reservations. Firm reservations, with deposits, will be accepted in January. Other motels may welcome you and your money. Transportation via shuttle bus is excellent during that weekend. Last year's QSO party on Saturday afternoon, at the Imperial House North, and dinner at an almost local restaurant were just great. Hope you can make it. If so, advise super coordinator K4CJX as soon as you can.

POPULATION EXPLOSION As of today, October 28, 468 superoperators, or "code persons" cluck and scratch about in the CFO coop. Listed by area they come to W4-94 W9-63 W8-52 W0-49 W2-43 W5-38 W6-37 W3-22 W1-18 W7-11 VE-13 DX-18 (15 countries). How about those W4 operators!

ABOUT THE CFO After those demographics, some history. Chicken fat advanced our technology from the early days, before spark, when a few of your ancestors used CF as a simple grease to pull things like heavy logs and women over the rough earth. Later, it burned in their lamps with a cheerful smoky sizzle, polished up their wampum, and kept their boats afloat in the sky blue waters. The CF technology explosion soon followed. Thomas Lipton rubbed it on his hulls and won so many cups that he went into the tea business. Thomas Edison used it in his work and, it is said, kept a bottle of it in his hip pocket. The first nuclear power plant that Ralph Nader described as "safe" was fueled with CF. On the air, talk about CF became as common as some long transmissions about paddle adjustment, SWR, and time payments, far behind CF in technical value. The savvy CF operators coalesced and CFO became the name, in September 1979. Stan Hails said to Doris, artist extraordinary and his own little xyl all at the same time, "Let us put out the right kind of a certificate for these CFO persons." She smiled, put down her coffee cup, and refused to talk to him for three days. The first CFO certificates were mailed out on November 13. Stan, W9WBL, and Doris have issued each of those stereo certificates. Super performance in Mundelein. Super +.

NOW HEAR THIS W9YPS, Frank, CFO 464 lives in Kewanee, Ill. Be advised that Kewanee means "prarie chicken."

LITTLE JOKE DEPARTMENT We have figured out the answer to the original CFO riddle, "What came first, the chicken or the egg?" The first chicken hatched the first egg and got a turkey. Turkeys came first. Another one was "How does a chicken turn a corner?" The answer is "Cluckwise."

CFO MEMBERSHIP We are happy to add to our Rooster of members and send CFO certificates to competent code cw operators upon recommendations from our members. We are not a club, exactly, with officers and dues and a regular publishing schedule. Our aim is to enjoy cw and CFO meetings at hamfests large and small. Stan, W9WBL, does pay duplicating and postage costs, and new members might send him \$2.00 when their certificates arrive.

CFO ROOSTER An up-to-date membership list is available from Mel, KØPFX. Send him \$1.00 and a SASE, a standard 9.5 by 4-inch envelope with a 20-cent stamp on it.

CFO MODES AND FREQUENCIES For normal QSOing 3535, 7035, 14065 and 21065 kHz seem to be popular. For RTTY, get information from K4CJX, K4CP, KB9XE or KØPFX. Steve, K4CJX, has a cw "mailbox" at 7032.25 kHz. He or KØPFX can explain almost everything about it. On cw, try to avoid the QRP spots, which may be 7060 and 14060 kHz.

** PARTY **

CQ CFO ----- CQ CFO ----- CQ CFO ----- CQ CFO ----- CQ CFO ----- CQ CFO ----- CQ CFO -----
ANNOUNCING.....The first ever....."CQ CFO QSO PARTY".....DECEMBER 1 through DECEMBER 15

All CFO-ers are invited to join thier friends and make it a FUN party. This is not a contest but rather a stimulus for some of our chickens who have not been out of the coop for a while. We want to hear from you all. So get out the "CF" and spread it on thick. Put CF on your keyboards and antennas, you'll be surprised how much it helps CW penetrate..... AN APPROPRIATE AWARD WILL BE PRESENTED*****SO DON'T MISS OUT ON THIS ONE*****

SIMPLE RULES: ALL continental US contacts with CFO members count as one (1) point each.
ALL "DX" (see roster) contacts with CFO members count as two (2) points each.
(all bands allowed, but no extra points for working CFO on 2 or more bands)
EXCHANGE: One (1) CFO QSO (this isn't a contest) and exchange of your CFO number.
At end of CFO QSO party, total up your contacts and score and send them to me no later than DECEMBER 30, 1981. The winner will be announced on the air via K4CJX Mailbox with an award presentation following at the Dayton CFO Kluck-In's Saturday night dinner.
*****SEND YOUR SCORE AND TOTAL CONTACTS TO: MEL WHITTEN/CFO-23/KØPFX
3219 HAAS AVENUE
BRIDGETON (ST. LOUIS) MISSOURI 63044 USA

"THE EARLY BIRD GETS THE ROOM"

The Second Annual CFO "CLUCK IN" - April 23rd, 24th, & 25th in Dayton, Ohio

Last April when our august group of crazies was only half the size of our current membership, more than 50 CFO, yls, xyls and other such creatures converged at the Dayton Hamvention and experienced the first annual CFO "CLUCK IN". During the weekend there were many planned informal gatherings, but the highlight of the weekend was the Saturday night dinner (which finally ended at 3:30 AM in the nest of W9TO). All of the CFO and their astonished xyls had a wonderful time. However, due to the limited space available, I cannot go into great detail to tell you what a mistake it would be for you to miss this grand event this year. Therefore, having relieved myself of any guilt by not informing you of this successful event, I now suggest that in order to fully appreciate the membership of the CFO, you plan to attend this year and experience the event for yourself.

Whereas, by virtue of the information contained herein all CFO have now been duly informed of the Second Annual CFO "CLUCK IN", and have been invited to participate with all rights, privileges and benefits, thereunto appertaining. Let it now be known that reservations for accommodations and the Saturday night bash should be directed to : K4CJX, CFO#7 Steve Waterman, 1100 Maplehurst Lane, Nashville, TN 37204. Such reservations for accommodations should be accompanied by a deposit of \$50 and should specify the number of chickens, roosters, and chicks attending. Unless otherwise specified, these reservations will cover both Friday, April 23rd and Saturday, April 24th at the Ramada Inn, North.

Please send your reservations as soon as possible....For further information contact me, W9TO or K0PFX.

.....
Steve, K4CJX, CFO#7

CHICKEN CLUCKERS:

NEVER let it be said that continuous wave (CW) is a dying art. We have progressed from the straight key to the sideswiper, to the semi-automatic key, to the electronic keyer and some to the microprocessor based key-board.

Now you can jump on the fence and crow with great confidence and knowledge that the CFO has at the coop door, a state-of-the-art electronic mailbox system (and just think, neither Wayne Green nor the A.R.R.L. thought of it first).

Here is how it works:

- Get on 7032.25 or, if you don't have a counter, you can probably set your dial to 7033 (750 hz offset, you know).
- Send K4CJXZW with no spacing at 33 to 43 WPM and then listen for a response. If it doesn't work, move up or down a bit and try again.
- Once you hear it respond with instructions for use, write the commands down on paper and give it a try.

The Typical Commands sent by the user (you) will do the following:

- Tell you what other CFO mailboxes are on the QRG
- Record a message
- Replay a message
- Delete a message
- Replay all messages
- Obtain a response to your earlier messages
- Obtain the latest CFO news

What will it do?

- Send a message from you to another CFO, send your announcements to the CFO, set schedules, reserve a room and place at the table for the annual CFO "Cluck In" to be held during the Dayton Hamvention in April and determine band conditions.

Schedule for the CFO Mailbox: (Unless I am out of town or on the air blabbing)

Mon-Fri 6:30 PM until 8:45 AM CST
Sat/Sun All Weekend

Also, when 40 meters starts sounding like "DX City" and you cannot hear anything within the continental US, try 35032.25 (35033 on your dial).

To my knowledge, this is the first CW mailbox system. Please help me keep it active..It is a dumb machine

operated by me ... so it is not as smart as the typical CFO OP. It is simple to use so give it try - THANKS.
